RE: Whatley v Stephen 1:21 cv 549

Dear Clerk  
Greetings;

Please submit this grievance into the courts record in the above styled and numbered cause, this is the type of ~~retaliation~~ retaliation a prisoner can expect for trying to file motions with the Court. Hindering is a understatement.

Friday Morning 7:40 March 11, 2022.

Law library officer Jones called myself and two other inmates to recreation yard to make copies of motions that I need to file with the criminal courts and copies of a letter to my attorney that support due ~~due~~ diligence on my part the poor accused citizen in Jefferson County.

Officer Jones refused to make copies of documents for Whatley. Jones told me (ordered) to stand in a certain place on recreation yard. Officer Jones will find any reason not to help a accused person with law library as simple as copies. They refuse to supply carbon paper now copies of documents who are fighting for their freedom. And through malversation, all officers here, and administration are doing everything in their power, to keep innocent people, in county jail

and refuse legal copies to a person trying to obtain his release. While Officer Blackwell on the dorm today will watch different inmates in the shower from just a few feet away, a sex crime. And make a innocent person stay on his bunk because he will not stand in a certain place on the recreation yard, while waiting on copies to be made Officer Jones malfeasance is a direct retaliation towards Whitley's legal rights and access to the courts

Thank you

John Mark Whitley
